BROMELIA serrulata, spectabilis, GREGGIANA: fisheri, neiliana, latifolia, miquiliana, CYCADA: caroliniana, etc. etc. etc. Beddard, Bourdier, media, neo-caledonia, normaniana, octinata, revoluta, ruemianiana, romphii, tatei, etc. etc. etc. DIOON: doleri, edulis, lina incana, purpurea, solimicola; NOEPHALARTOS: albonsteinii, barteri, brachyphyllus, caryophyllus, cycadifolia, leucomela, lonchocarpus, hoerhousii, transvenosus, villosus; MACHOZAMIA: coralipes, denisonii, diplophylla, fozzackii, heteromera, laevis, moorii, pauli-guilielmi, reidii, secunda, spiralis; STENOCLADIA: paradoxa. ZAMIA: different seeds have come to us from Florida possibly sp. floridana, pumila, integrifolia and others we hope to receive from Mexico and C. America, also our files show spp angustifolia, silvicola, vulpina, etc. etc. etc. For many years from the Orient, Africa, Florida, Australia, and elsewhere we have imported numerous species and varieties of Cycadeaceae with very good results in germinating, however the demand has not been great and they have not been received on the market as we supposed they would, also many times the cost was great in the process of collection. We do not promise delivery of all we list but a fair portion is obtainable each year from us. Others we have listed but fail to mention on this list. Small plants (bulbs in some cases) are available for some of the above mention but their prices are high in many of the species. Write to us your needs at an early date. BROMELIADS: no offered in packets and in lots of 100s \$3. and per 1000 \$20. best seed from different collections these are the seed-AECHMEA: angustifolia, calyculata, caudata, cylindrica, fasciata, filiculis, fosteriana, fano-sepala, korteziana, luddemanniana, nudicaulis and var. aureo-rosea and cuspidata, erlandiana, pinetii, volsoii, recurvata; BILLBERGIA: amoena, marmorata, pyramidalis, saundersii, zebrina; BROMELIA: antiochiana, variegata of balansae, CINISTRUM: giantiforme, lindenii; CATOPSIS sessiliflora; GREIGIA sphaelata, DYKIA: mississippiana, rariflora, remotiflora mixture of five kinds; GUZMANIA: berteroniana, monostachya, rosea, cardinalis, tricolor; HESCHIA argentea; HOHENBERGIA: augustae, stellata; NEOREGELIA: ampullacea, caroliniae, marmorata, spectabilis, NIDULARIUM citrinum, innocenti, var iety, lineatum and striatum and withackiana, procerum rutilans, scheremetiewii, PITCAIRNIA tuarekheimii, PORTEA petropollitana, PUVA spathacea, ORTHOPHYTUM speciosus; QUESNELIA: arvensis, quesneliana, TILLANDSIA: andrieuxii, butzii gartnerii, germiniflora, malleonitii, lindeniana, pulchella, var. surinamensis, stricta, triticea, viridiflora, VRIESEA: bituminosa, blokkii, botafogensis, carinata, erythrocladon, ensiformis, furiburgensis, gigantea, uttata, hiero lyphica, inflata, longicaulis, philippi coburgii, and var. bogans, platynema and variety variegata, platynema procera, psittacina, reginae, ringens, recurvata, rodigasiana, saundersii, scalaris, splendens and var. major, tessellata, unilateralis, younghii; WITTHACKIA: superba, smithii.
